**Directions:** Complete the following progress note using the information from **part I** of the Case Study of Allison. Refer to the "Guidelines for Writing a Soap Note" resource to guide you through completing the progress note for Allison.

Client: Allison Williams

ID#: 9262013

Date: 8/30/2020

**S (Subjective):**

Allison presented at the agency today for her case management visit, she reports that "she is feeling overwhelmed. She states that nothing she does will make it better, and that she will never fall in love again. She states that nothing is enjoyable anymore, and the only way she can dull the feelings of pain and the emotions of worthlessness is to drink; but when she is intoxicated, she just feels worse".

**O (Objective):**

Allison appeared to be wearing clothes that she slept in and her hair was unwashed, hanging in her face. She looked like she had been crying due to the bags under her eyes.

**A (Assessment):**

Allison sat quietly, staring at the floor, with her arms folded around herself, as if giving herself a hug. At times, it appeared as if she was rocking back and forth. When she arrived, Allison slowly walked back to the office, looking at the floor.

**P (Plan):**

Ct. is to follow up on the referral for local group counseling twice a week, cognitive behavioral therapy once or twice a week for 30- to 60-minute sessions over 12 to 20 weeks, attend alcohol anonymous once a week for 1 hour for the next 9 weeks, and Dialectical Behavior Therapy (DBT) Individual treatment once a week for 1.5 hour for the next 9 weeks.

[Nursing Administration Handbook](#) Howard S. Rowland, Beatrice L. Rowland, 1997 This handbook presents the concepts of the administrative process as applied to the administration of healthcare delivery The purpose of the book is to provide a roadmap for nurse administrators to use as they negotiate their way through an increasingly complex and evolving field It is a text and a hands on reference Texts such as this are needed and authors

objectives are met The book is a text for students and handbook for nurse executives My judgment is that it is for graduate students and beginning managers for the most part The authors are credible given it is their fourth edition of the book The illustrations include tables and examples of management tools that serve to highlight important points in the text References are mostly from the early to mid 1990s with some of the older more historical references The table of contents is thorough and easy to use This book covers thoroughly the concepts incorporated in the nursing administration domain The framework for organizing the chapters is an acceptable framework but not one I prefer The book is useful and the tables and examples are helpful I would recommend its use as a basic reference for graduate students in nursing administration
