Missionaries are concept oriented and it's absolutely critical for business leaders to know which type their company is to create an authentic and ultimately sticky position in the market. A company's DNA is the key to achieving this and with it a competitive advantage. Why? Because if a company creates a marketing campaign based on its belief that it is a Missionary, the underlying positioning will not ring true and the company won't gain a foothold in the market. But if a company positions itself in alignment with its DNA, it will resonate authentically and establish its role and relevance even in the face of a major competitor. Get to Aha presents a clear step by step framework that will help you determine your company's precise position in the marketing landscape using Andy's DNA based methodology. It takes you through the process of performing genetic testing on your company, examining the market through the six Cs of positioning and developing your positioning statement, a rational factual statement about your company's role and relevance. Then and only then can you create a branding and marketing strategy that will build market momentum and crush the competition. Trust Andy. Steve Jobs did. *Leadership Energy* (E David Cottrell, 2008). The most celebrated equation of all time, Albert Einstein's formula transformed much of the scientific world's thinking about the universe. This book borrows some of the principles of Einstein's theory and applies them to explain the positive energy found in successful high achieving organizations. Inside, along with five key energy conductors that generate the energy necessary to achieve your organizational goals, you'll also discover some surprising drains on the energy that exists within your organization. *Standard & Poor's Creditweek*, 2005. **Television & Cable Factbook**, 2005. *Cable Vision*, 2000.
