them VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product. We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre-owned, used or even refurbished. In addition they are often advertised for the incorrect series and or model years. With more than 250 titles in print, VelocePress is one of the fastest growing specialty automobile and motorcycle publishing companies in the USA. Please visit our website at www.VelocePress.com for more information on our company and our books.

Scooter Lifestyle Ian Grainger, 2014-09-16

There has been plenty said and written about scooters over the years but until now there has been no definitive look at the culture surrounding our chosen way of life. Many authors have written about mods and the infamous and often over-hyped beach battles of the 1960s but hardly any have tried to capture the atmosphere of the modern scene in print. We still owe the original mods for fuelling the imagination of past, present and future generations and for leaving a rich scooter heritage behind them. Although the mod way of life was the spark which lit the fuse for many of us, the majority of scooter riders have evolved into lifestyle scooterists. We may not dress in a particular style, our scooters may not be adorned with lights and mirrors but we still burn with the same passion as our scooter riding ancestors. It's over sixty years since the first Italian scooters rolled off the production lines but there is still a buzzing and vibrant lifestyle surrounding them. The small capacity machines have overtaken the lives of thousands of us, often to the detriment of everything else we hold dear. Careers, relationships and families have suffered for this overwhelming and expensive addiction. An addiction to which there is no cure. We live and breathe the sickly sweet smell of synthetic two-stroke oil and worship at the altar of our chosen gods, Lambretta and Vespa or occasionally Gilera and Italjet. Our hands are permanently ingrained with the oily tattoos of a thousand engine rebuilds and our major organs have suffered the long-term effects of our hedonistic lifestyle. Including interviews with well-known scootering personalities, over 150 colour photographs of award-winning custom scooters, best-selling scooter models and information on rallies and events, this book is a must-have for anyone interested in these fun machines.
