A History of Russian Literature Andrew Kahn, Mark Lipovetsky, Irina Reyfman, Stephanie Sandler, 2018-04-13 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and personal Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular brings out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation

to comprehend what is at stake and be impelled to collective and individual action The Ethical Crises of Civilization is a book that should be read by all scholars and students in a wide array of disciplines including history political science religious studies philosophy anthropology and sociology About this volume This book is written in the tradition of Spengler and Toynbee but my focus differs sharply from theirs I am attempting to evaluate the course of civilization its benefits and its curses at a time when its potentiality for either good or evil has been vastly increased My study has drawn principally on the record of four major civilizations still in existence today the Chinese Indian Islamic and Western The values and the standards of judgement are those of a humanist emphasizing our needs in this life in this world and not believing in salvation in some other existence I consider that the present system of government by so called nation states is becoming obsolete and will be replaced in the Twenty First Century and that the organized religious are responsible for dividing humanity into separate and often hostile groupings Leslie Lipson Ph D Praise for this volume Professor Lipson draws on his deep interest in history to assess the progress of civilizations toward increasing their ethical content He sees a growing awareness of ethical choices advance as well as a growing danger of civilizations self destruction melt down He argues that it is the obligation of a scholar to contribute to the understanding of both ethical issues and values The author treats this difficult subject matter with impressive knowledge humor originality and with literary grace World Affairs Council of Northern California An important and quite original contribution to the large and growing literature on the general theory of civilization going back in about the last 100 years to Hegel Spengler Brooks Adams Albert Schweitzer Arnold Toynbee and so on Makes an important contribution to this discipline bringing many new ideas into it It has an easy almost conversational style Kenneth E Boulding late of the University of Colorado at Boulder Distinguished Professor of Economics This book attempts something which is very unfashionable in our days It examines sympathetically but critically the thesis that history is progressive that civilizations are improving because their ethical content is increasing And the author does it with wit verve and a marvelous style that makes almost every sentence a joy to read He also displays a most impressive knowledge of history and literature This is an unusual book Despite the difference between my taste and the author s I found it to be an original courageous and highly enlightening inquiry into a subject that cries out for serious treatment not merely tracts that celebrate the end of communism or proclaim the beginning of a new age in which western values no longer dominate or even serve as guidelines in non western parts of the world Its lack of conventionality its intellectual originality ought to appeal to historically minded people who are tired of having their values and judgements debunked by the sound bites of particularistic notions of ethics Ernst B Haas Robson Research Professor of Government University of California at Berkeley Professor Leslie Lipson s newest book The Ethical Crises of Civilization Moral Meltdown or Advance is a sweeping examination of the major moral transitions in human history World Affairs Council of Northern California About the author Interpreting the course of human history and using the past as a guide to the present and the future has been Leslie Lipson s abiding intellectual interest In addition to his
