Where Am I in the Picture? Claudia Mitchell, Katarina Giritli-Nygren, Relebohile Molestane, 2023-12-18 Positionality and researcher reflexivity how to account for one's subject position remain as challenges for new researchers But they also remain as challenges for experienced researchers who are often involved in multiple research projects simultaneously Where Am I in the Picture sheds light on the idea of researcher positionality through visual methodologies particularly in the context of studying rurality in Canada Sweden and South Africa The book is intended for new and experienced researchers seeking to decolonize their own perspectives in research in the social sciences and humanities It incorporates photographs drawings and memory work to highlight the social constructedness of what counts as rural Drawing together compelling narratives from researchers about their positionality in studying rurality the book highlights a need for greater attention to where we are in the picture more broadly It suggests that when it comes to the rural researchers need to rethink the interplay of dominant images insider and outsider perspectives and what this interplay means in relation to interpretation Where Am I in the Picture presents a new vision of how to take into consideration positionality in research

Youth In South Africa Ariane De Lannoy, Malose Langa, 2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in

South Africa Agency in visibility and national development takes stock of the nation's development as it affects young people. Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood. These include formal and informal engagements with politics as well as protest, unemployment, entrepreneurship, education, religion, experiences with sexuality and violence, and a multitude of other life experiences. Contributors paint a picture of the initiative, agency, and resilience of the youth, as well as the challenges before them. Authors also identify the state of 'waithood' faced by those unable to make the transition out of youth into full adulthood as a result of their socio-economic circumstances and political context. By engaging these experiences and insights, and primarily informed by the inputs of young people, the authors highlight the limitations of existing youth policies and frameworks. The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment, and by the messages the youth communicate about the limitations of current approaches.

Blended learning environments to foster self-directed learning Christo van der Westhuizen, Mncedisi C. Maphalala, Roxanne Bailey, 2023-03-31. This book on blended learning environments to foster self-directed learning highlights the focus on research conducted in several teaching and learning contexts where blended learning had been implemented and focused on the fostering of self-directed learning. Several authors have contributed to the book, and each chapter provides a unique perspective on blended learning and self-directed learning research. From each chapter, it becomes evident that coherence on the topics mentioned is established. One of the main aspects drawn in this book and addressed by several authors in the book is the use of the Community of Inquiry (CoI) framework when implementing teaching and learning strategies in blended learning environments to foster self-directed learning. This notion of focusing on the CoI framework is particularly evident in both theoretical and empirical dissemination presented in this book. What makes this book unique is the fact that researchers and peers in varied fields would benefit from the findings presented by each chapter, albeit theoretical, methodological, or empirical in nature. This, in turn, provides opportunities for future research endeavours to further the narrative of how blended learning environments can be used to foster self-directed learning.

Annual Report ... South Africa. Department of Higher Education and Training, 2016. *Annual Report South Africa*. Department of Basic Education, 2016. **States and the Making of Others** Jeanne Bouyat, Amandine Le Bellec, Lucas Puygrenier, 2024-06-17. This volume offers a unique interdisciplinary and comparative perspective on contemporary processes of othering by state institutions in relation to dynamics of racism, xenophobia, sexism, homophobia, as well as ethnic and class-based discriminations. It focuses on eight original case studies empirically grounded in various domains of the social state in Southern African and Western European contexts: the education and health care systems, the regulation of work, and of procreation rights, and institutions in charge of granting asylum. The authors provide key insights on how states produce Others, and on how othering contributes in turn to the process of state formation and the politicization of public action.
