Powerful Literacy in the Montessori Classroom Susan Zoll, Natasha Feinberg, Laura Saylor, 2023

Teaching reading successfully requires deep knowledge of the reading process and development, as well as the implementation of impactful reading instruction and differentiation. This book aligns Montessori didactic materials and pedagogy developed over a century ago with current research on reading development. Readers will gain a solid overview of the Montessori philosophy and method, specifically those related to reading and language development, enabling them to support their practice in today's educational context while inspiring the wider field of education. The authors explain how the Montessori approach is inherently aligned with the Science of Reading in that they are both scientifically based and contain methods that follow a logical, systematic, and explicit progression of teaching and learning. Montessori education supports instructional differentiation that is cognizant of children's need for independence and highly mindful of literacy and language development.
