Companion to the Twentieth-century Spanish Novel Marta E. Altisent, 2008 The Spanish novel in a turbulent century This collection of studies by eighteen prominent theorists and critics offers a diverse panorama of the modern Spanish novel seen through the prism of Spain's recent political, cultural, and ideological history. It considers the development of the novel as a social mirror and as a changing literary form torn between the tradition of stern realism and the aesthetics of rupture affecting all Western literature from the Avant Garde to the Postmodern age. While some essays emphasize the Spanish cultural context and canonical writers, others are of a broader nature, grouping lesser-known writers under certain literary tendencies: the metaphysical novel, the urban novel, recuperative accounts of the Civil War, feminine first-person narrations, and the rise of the popular detective, historical, and erotic novels. Three studies address the resurgence of the Catalan, Basque, and Galician novel and their departure from a poetics of identity to one of global concerns. Interdisciplinary approaches address the reciprocal impacts of literature and cinema, and the effects of the marketplace on the consumption of fiction are not forgotten. The Companion provides ample bibliographies and a valuable chronology, while all titles and quotations are translated into English. Contributors: Marta E. Rosi Song. *Spanish Poetry of the Twentieth Century* Andrew Debicki, 2014-10-17 Twentieth-century Spanish poetry has received comparatively little attention from critics writing in English. Andrew Debicki now presents the first English-language history published in the United States to examine the sweep of modern Spanish verse. More important, he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the symbolists to the postmodernists. Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories, Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject. He demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences. He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern, especially the poetics of text as process rather than as product. By centering his study on major periods and examining within each the work of poets of different ages, Debicki develops novel perspectives. The late 1960s and early 1970s, for example, were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self-referential lyricism. This book will be essential reading for specialists in modern Spanish letters, for advanced students, and for readers interested in comparative literature. **Hold That Pose: Visual Culture in the Late Nineteenth-Century Spanish Periodical**, 2008 **The Americans: Reconstruction Through the 20th Century** Holt McDougal, 2002 **Being Portuguese in Spanish** Jonathan William Wade, 2020-04-15

Among the many consequences of Spain's annexation of Portugal from 1580 to 1640 was an increase in the number of Portuguese authors writing in Spanish. One can trace this practice as far back as the medieval period although it was through Gil Vicente, Jorge de Montemayor and others that Spanish language texts entered the mainstream of literary expression in Portugal. Proficiency in both languages gave Portuguese authors increased mobility throughout the empire. For those with literary aspirations, Spanish offered more opportunities to publish and greater readership, which may be why it is nearly impossible to find a Portuguese author who did not participate in this trend during the dual monarchy. Over the centuries, these authors and their works have been erroneously defined in terms of economic opportunism, questions of language loyalty, and other reductive categories. Within this large group, however, is a subcategory of authors who used their writings in Spanish to imagine, explore, and celebrate their Portuguese heritage. Manuel de Faria e Sousa, ngela de Azevedo Jacinto Cordeiro, Antnio de Sousa de Macedo, and Violante do C u among many others offer a uniform yet complex answer to what it means to be from Portugal, constructing and claiming their Portuguese identity from within a Castilianized existence. Whereas all texts produced in Iberia during the early modern period reflect the distinct social, political, and cultural realities sweeping across the peninsula, to some degree, Portuguese literature written in Spanish offers a unique vantage point from which to see these converging landscapes. Being Portuguese in Spanish explores the cultural cross-pollination that defined the era and reappraises a body of works that uniquely addresses the intersection of language, literature, politics, and identity.

Twentieth century poetry engages in a highly self-conscious meditation on the nature of poetic language. Spanish poetry, however, has sometimes been considered an exception to this tendency. This book, with its focus on linguistic self-reflexivity, refutes the notion that major Spanish poets such as Jorge Guillen and Vicente Aleixandre are theoretically naive creators. In a series of nuanced readings, Jonathan Mayhew demonstrates the extent to which modern Spanish poets are conscious of their linguistic medium. Previous books on Spanish poetry published in English have been more limited in scope, usually including poets of a single generation. *The Poetics of Self-Consciousness* is the first to study well-known writers of the earlier part of the century along with more recent poets such as Jose Angel Valente, Jaime Gil de Biedma, Jose Maria Alvarez, and Juan Lamillar. Interpreting poetic texts written from the 1920s through the 1980s, Mayhew is able to trace the evolving function of literary self-consciousness in Spanish poetry while remaining attentive to the differences among writers of the same

historical moment The modernist poets of the earlier part of the century are preoccupied by the problem of literary mimesis the representation of reality through language In the postwar years poets turned their attention to the social and ethical dimensions of poetic language The postmodernists of more recent decades finally are increasingly concerned with their own belatedness with respect to cultural traditions of the past Critics hailed Jonathan Mayhew s first book Claudio Rodriguez and the Language of Poetic vision as an enlightening and timely book on perhaps Spain s greatest living poet and a signal first effort from a critic with high scholarly standards and a penetrating insight into contemporary poetry With The Poetics of Self Consciousness Twentieth Century Spanish Poetry readers will discover another probing study of other modern and postmodern Spanish poets BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
