web friction stir welding is the optimal joining process for non ferrous metals with a low melting temperature and for mixed metal combinations friction stir welding fsw the process friction stir welding is a process in which a rotating pin is traversed along the contact surfaces between the workpieces

friction stir welding twi - Mar 09 2023

Friction stir welding (FSW) is a solid state joining process developed at TWI Ltd in 1991. FSW works by using a non-consumable tool which is rotated and plunged into the interface of two workpieces. The tool is then moved through the interface and the frictional heat causes the material to heat and soften.
