G H Mead A Critical Introduction Key Contemporary Thinkers:

G.H. Mead Filipe Carreira da Silva,2013-04-26 G H Mead is rightly considered to be one of sociology s founding fathers yet to date there have been surprisingly few books devoted to his life and work This book fills the gap by introducing Mead s ideas to a younger generation of social scientists Beginning with a biographical account of the main events in Mead s career Filipe Carreira da Silva provides a thorough examination of Mead s social theory of the self the reception of his ideas into sociology and the relevance of his work to the contemporary social sciences He focuses in detail on the core ideas associated with Mead s work including gesture and the significant symbol the I me distinction and the generalized other as well as exploring less well known aspects of his writing This comprehensive introduction to Mead s thinking will appeal to students across the social sciences providing a refreshing perspective on the social nature of the individual self *Habermas* William Outhwaite,2013-04-30 This new edition of a well regarded book provides a concise and exceptionally clear introduction to Habermas s work from his early writings on the public sphere through his work on law and the state to his more recent discussion of science religion and contemporary Europe Outhwaite examines all of Habermas s major works and steers a steady course through the many debates to which they have given rise A major feature of the book is that it provides a detailed critical analysis of Habermas s most important work *The Theory of Communicative Action* As well as looking at Habermas s appraisal of figures such as Foucault and Derrida the book also examines his resolute defence of the Enlightenment project his work on law and democracy and its implications for the important topic of European integration This book quickly became established as an authoritative guide to Habermas s work and this updated new edition will be an invaluable critical introduction for students and scholars across the social sciences and humanities especially sociology politics philosophy and social theory Byung-Chul Han Steven Knepper,Ethan Stoneman,Robert Wyllie,2024-06-07 Byung Chul Han is one of the most important living philosophers renowned for his critiques of the digital age In response to the idea that new technological devices expand our freedom he argues that they lead to burnout and self absorption and that we must redevelop contemplative practices which slow us down and open us up He has brought to his thought forms of deep cosmopolitanism developed from both Zen Buddhism and a renewed Romanticism This book is the first critical introduction to Han s body of work Knepper Stoneman and Wyllie explore Han s rich oeuvre to date and his incisive contributions to a range of disciplines including critical theory media studies political philosophy and aesthetics They unpack his key terms and illustrate his concepts with a range of examples revealing how the critiques of the achievement society and burnout which have earned Han a global audience build on his earlier accounts of power violence and mood This broader view addresses the most frequent criticisms of Han and makes a compelling case that he is not only an insightful diagnostician of the present moment but one whose interpretation of both Western and Eastern traditions offers wisdom for navigating the now acute problems of modernity This lively book is essential reading for anyone getting to grips with Han s extraordinary work *Isis*
