Cuba Vs Spain (Classic Reprint) Enrique Jose Varona,2015-07-11 Excerpt from Cuba Vs Spain War is a dire necessity But when a people has exhausted all human means of persuasion to obtain from an unjust oppressor a remedy for its ills if it appeals as a last resource to force in order to repel the persistent aggression which constitutes tyranny this people is justified before its own conscience and before the tribunal of nations Such is the case of Cuba in its wars against Spain No metropolis has ever been harsher or more obstinately harassing none has ever exploited a colony with more greediness and less foresight than Spain No colony has ever been more prudent more long suffering more cautious more persevering than Cuba in its purpose of asking for its rights by appealing to the lessons of experience and political wisdom Only driven by desperation has the people of Cuba taken up arms and having done so it displays as much heroism in the hour of danger as it had shown good judgment in the hour of deliberation The history of Cuba during the present century is a long series of rebellions but every one of these was preceded by a peaceful struggle for its rights a fruitless struggle because of the obstinate blindness of Spain There were patriots in Cuba from the beginning of this century such as Presbyter Caballero and Don Francisco Arango who called the metropolitan government s attention to the evils of the Colony and pointed to the remedy by pleading for the commercial franchises required by its economical organization and for the intervention of the natives in its government not only as a right but also for political expediency in view of the long distance between the Colony and the Home Government and the grave difficulties with which it had to contend The requirements of the war with the continental colonies which were tired of Spanish tyranny compelled the Metropolitan Government to grant a certain measure of commercial liberty to the Island of Cuba a temporary concession which spread prosperity throughout its territory but which was not sufficient to open the eyes of the Spanish statesmen On the contrary prompted by suspicion and mistrust of the Americans they began by curtailing and shortly after abrogated the limited administrative powers then possessed by some of the corporations in Cuba such as the Junta de Fomento a board for the encouragement of internal improvements About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
