1. Obtain your smtp information from your Mail provider.
2. If your mail provider offers two-step verification, switch off the feature, switch on "allow less secure apps". It MIGHT be possible to use "Apps password" (not covered here).
3. Select "Always use secure connection (SSL/TLS)".
4. Authentication requires you enter both your email address and the password to your email account.

Scan to Email

Scan to Email Setup

The printer allows you to scan documents and send them to one or more email addresses as attachments—without additional scanning software.

To send the scanned documents, the printer must use an outgoing email address (also known as an "outgoing email profile"). The email address appears in the FROM portion of the email messages sent by the printer.

If you are setting up Scan to Email in an environment that uses a single email server to manage all email accounts, configure the settings in the Outgoing Email Settings section. Otherwise, configure the settings in the Outgoing Email Profiles section.

Outgoing Email Settings

To use Scan to Email, select the desired settings for each field, as well as whether fields can be edited at the printer control panel. If any selections require sign in from the control panel, configure the setting on the Access Control page.

From: User editable

Default From:

Default Display Name: (This name appears on the control panel instead of the Default From address.)

SMTP Server:

SMTP Port:

Always use secure connection (SSL/TLS)

Validate server certificate
The printer can only confirm that the connection is secure if this option is selected.

Maximum Size of Email: (Larger scanned documents are sent in multiple email messages.)

Server Authentication: Server does not require authentication
