Controls International Critical Writings Economics:

Why the World Economy Needs a Financial Crash and Other Critical Essays on Finance and Financial

Economics Jan Toporowski,2010-12-01 The essays in this volume explain the key structural features of financial inflation that give rise to financial crisis These features include excessive reliance on finance to maintain economic activity through rising asset prices Reliance on asset inflation induces a preoccupation with property values and a new social divide between the asset rich and the asset poor that undermines the culture of the welfare state When debt can no longer be supported by cash flow from asset markets excess debt plunges economies into economic depression

New Critical Writings in

Political Sociology Alan Scott,2017-03-02 In the third and final volume of this series we examine the implications of the accelerating globalization process for the nation state Are globalization the rise of regional and international institutions and the international agreements on human rights actually reducing and transforming state sovereignty Clearly ethnic racial and religious identities remain salient but how do they correspond to intersect with and overflow continuous nation state spaces that are demarcated by legally recognized borders In what conditions do democratic state building projects actually enhance political civil and social rights and when do they tend to contribute to the consolidation of elite power Should democratic forces put their faith in a cosmopolitan vision of global citizenship especially when they tackle quintessentially international and transnational problems like peace aboriginal rights and the protection of the environment In this volume s collection of contemporary political sociologists key articles we present work that explores the exposure of the nation state and the post World War II world system to global forces
