WORKSHEET PREPARATION GUIDE

Completing the Outline Worksheet can be a challenging thing, especially if it is your first exposure to the material. We want you to work hard and do your best. But we also don't want you to feel overly anxious or fearful about what is going to happen when you present in your small group.

Of course, the best way to understand the concepts in the Outline Worksheet is to take an Online Course or attend a Workshop. If this is your first course, we won't expect you to have gotten it all. This document clarifies some of the terminology and the intention of the questions on the worksheet. You can also visit consult the resources available at www.simeonstrust.com for more help.

1. How does the context inform the meaning of this passage? Please consider: a) the literary context (passages before and after the passage), b) the historical context (circumstances of the audience), and c) the biblical context (citations/allusions or historical connections to other books that the author is making).

For each genre, the best way of finding literary context (and the context of the whole book) is to read the whole book over and over again. Get a feel for the major themes and arguments of the whole book. Get a feel for the story arcs and arguments in the major sections. But mostly, just keep reading!

For historical context, it might be good to consider the following:

- **Old Testament History:** Old Testament History, for the most part, refers to the history of Israel. The book you are studying will be the best source of particular historical contexts. But finding references from other books throughout the Old Testament covering or addressing the same period in history might also be helpful (e.g., in the Prophets or Psalms). For example, some of the Psalms give a particular historical context. So, when studying the story of David in 1 and 2 Samuel, you might actually be able to look at the poetry he was writing at the time. Additionally, it can be very helpful to look at the previous period in history and note what problems it has. For example, 1 Samuel is, in part, the story of how Israel got a human king. Looking at the previous period in Israel's history at the end of Judges helps put the transition from judges to kings in perspective.
- **Wisdom Literature:** The Wisdom books are, for the most part, somewhat separate from historical context. Song of Songs and Job, for example, do not really give us any clues as to their place in Israel's history. There are some good clues in Proverbs, but it is less clear that the historical context has a role to play in the book. Some of the Psalms can be tied to historical situations in the historical books, but certainly not all of them can. So, ask yourself what you can learn from the Scriptures about the historical context, but be very slow and measured to rest your interpretations on it.
- **Prophetic and Apocalyptic Literature:** The Prophetic and Apocalyptic books of the Old Testament are, for the most part, tied into Israel's history in the Old Testament historical books. You might be able to find helpful references to particular people, prophets and kings of Israel and Judah, in especially 1 and
