Fast Food Nation Eric Schlosser,2001 The story of fast food is to large extent the story of post war America In a perverse way it is also the story of Britain since the deregulation of our food and labour markets in the early 1980s

Quicklet on Eric Schlosser's Fast Food Nation Chandni Rathod,2012-07-30 ABOUT THE BOOK Hundreds of millions of people buy fast food every day without giving it much thought unaware of the subtle and not so subtle ramifications of their purchases They rarely consider where this food came from how it was made what it is doing to the community around them They just grab their tray off the counter find a table take a seat unwrap the paper and dig in The whole experience is transitory and soon forgotten I ve written this book out of a belief that people should know what lies behind the shiny happy surface of every fast food transaction They should know what really lurks between those sesame seed buns Published in 2001 Eric Schlosser's Fast Food Nation The Dark Side of the All American Meal explores the dark underbelly of fast food production in the United States An award winning journalist and contributor to Atlantic Monthly Schlosser developed the book from a series of articles for Rolling Stone magazine Rolling Stone asked Schlosser to find out where fast food came from As someone who enjoyed indulging in fries and hamburgers Schlosser was initially reluctant to take on the assignment As he began to research the history and formation of the fast food industry he became increasingly curious about how the industry gained power and influence on America's agricultural landscape and food culture With over 50 pages of research notes included at the end of the book the author defends his points with thorough analysis from various legal investigations interviews and journal articles Schlosser artfully weaves sarcasm with gritty investigative journalism to demonstrate how corporations and greed have corrupted the food system in America Schlosser's book was a New York Times bestseller for over two years and has sold over 1.4 million print copies In 2006 Fast Food Nation became a fictionalized film directed by Richard Linklater which was featured at the Cannes Film Festival However the book and film were not met without criticism from trade industry producers of beef potatoes and restaurant chains like McDonald's The Wall Street Journal reported in 2006 that various organizations were trying to create campaigns against Schlosser's allegations in the book that fast food consumption contributes to obesity and fostered corruption in the nation's agricultural system

EXCERPT FROM THE BOOK The author playfully muses that should America be attacked in the future Cheyenne Mountain may be the only place with artifacts of our civilization Burger King wrappers hardened crusts of Cheesy Bread Barbeque Wings bones and the red white and blue of a Domino's pizza box What started as a small food stand in southern California has now spread all over the nation Schlosser

says fast food has infiltrated every nook and cranny of American society Shockingly Americans spend more today on fast food than higher education computers or new cars Schlosser estimates On any given day in the United States about one quarter of the country s adult population visits a fast food restaurant The author argues that the powerful rise of fast food industry happened quickly and not only transformed the American diet but also out landscape economy workforce and popular culture Importantly Schlosser draws parallels between Cheyenne Mountain and today s fast food industry *A Joosr Guide To... Hansen,2023-08-29 In *War Work and Want* Randall Hansen focuses on how the oil shock transformed not just the economy proper and the geopolitics of the Middle East region but also the global circulation of people and capital for decades afterward Hansen asks why against all expectations global migration tripled after 1970 Arguing that the OPEC oil crisis explains everything he shows how war migration and the desire for ever cheaper products made by migrants led to a massive

upsurge in global migration after 1973 *To Educate a Nation* Carl F. Kaestle, Alyssa E. Lodewick, 2007 Eleven stimulating essays using case studies of major cities and their schools suggest what might be done to better foster equity and diversity in educating American public schoolchildren highlighting the complications inherent in today's education system and providing a framework for grappling with these problems **The Nation**, 2009 *Fast Food* Andrew F.
