Age of Delirium David Satter,2001-01-01 Feared and respected as one of the world s two great superpowers the Soviet Union throughout the final twenty years of its life was a model of state organized delusion As David Satter shows in powerful detail the leaders of the Kremlin found that when their carefully constricted facade fell apart in the late 1980s there was nothing to prop up the

crumbling ruins Satter s book demonstrates compellingly how the Soviet people were forced to live a gigantic lie During nearly two decades of reporting for the Financial Times and Reader s Digest he interviewed Soviet citizens all across the vast country not just the dissidents and party apparatchiks in Moscow but ordinary men and women Traveling with him from coal mines and farms to bureaucratic reception halls to the nightmarish wards of punitive psychiatric hospitals to railroad stations where victims of the Communist system set up camp the reader witnesses how an entire state was constituted on the basis of a fraudulent version of reality In the Soviet Union lying at the grocery and the factory as well as the government office was universal and obligatory and Westerners were seldom able to penetrate the perplexing mosaic of wishful thinking and denial that camouflaged a brutal regime
