Debating in Teaching and Learning English Ben Wilson, 2024-04-18 This book offers the first full length treatment of the topic of debating as a method of developing English Foreign Language EFL speaking inviting scholars and practitioners to reflect on the demands of the current age for moving forward educational practice While debating is a well known method of dialogic speaking and is widely practiced the extent to which it is integrated in adult TEFL has not been established and an understanding of its affordances for developing foreign language speaking is also limited This book fills the gap in the field of TESOL and applied linguistics on the affordances of debating as a form of dialogic speaking that can promote a holistic understanding and improvement of experience of education and indeed academic outcomes The two main themes that situate

the work are those of dialogic speaking and affect at times referred to as humanistic positive psychology and social and emotional learning The book details the experiences of an adult EFL debate group in a private language school in the North of Italy It reports how the participants experience the pedagogy so as to offer insights into it as a form of teaching speaking in adult EFL as well as providing a practical framework with lesson plans and curriculum The affordances of debating emerge as being social cognitive educational and communicative and are discussed alongside the work of language teaching scholars Curran and Freire and more broadly within a Social Constructivist approach to education As such debating is discussed as being a holistic and dialogic form of pedagogy Particular attention to experience often affective is also found to be fundamental in planning and assessing educational outcomes for both teachers and learners

THE Journal ,1994-08 *ESOL Lesson Planner* Galina St George,2019-12-03 Every teacher knows that a good lesson needs planning and preparation It applies to everything we teach and ESOL is certainly no exception I have been asked occasionally to teach classes at very short notice which means no preparation and I have managed to do it However it has always left me with a sense of frustration which is why I rarely agree to do it these days because I like to be prepared in order to make my lessons count Having recently returned to teaching I have discovered that I had two major issues 1 I couldn't find a lesson plan template I liked 2 My lesson plans kept getting lost among the paperwork So I decided to create a book which I was going to use for my lesson planning I worked out a plan template which I liked I didn't want to make it too long Like everyone else I have a life and detailed plans are time consuming So it needed to be short I aimed to fit it into 1 page with the second page expanding on the activities takeaways and other aspects should there be a need for a more detailed description Once the book gets published I will be ordering a couple of copies of the *ESOL Lesson Planner* for myself I hope that you find the templates as useful as I have found it so far it's just that from now on I will have all of my plans in one place which can't be a bad thing
