ABSTRACT

This article examines the strategic implementation of SAP FICO (Financial Accounting and Controlling) modules within enterprise resource planning systems, focusing on its evolution from basic Material Requirements Planning to sophisticated financial integration platforms. The article analyzes implementation frameworks across various organizational contexts, particularly emphasizing manufacturing sector applications. The article investigates critical success factors throughout different implementation phases, including project planning, system design, configuration, testing, data migration, training, and post-implementation support. Through extensive analysis of multiple case studies and empirical research, this article demonstrates how structured implementation approaches significantly improve financial operations, enhance reporting accuracy, and streamline business processes. The article highlights the importance of change management strategies, stakeholder engagement, and comprehensive training programs in achieving successful SAP FICO implementations. Additionally, the article provides insights into post-
