Dogmatics in Outline Karl Barth,1958 *Dogmatics in Outline* Karl Barth,G. T. Thomson,1996 Barth stands before us as the greatest theologian of the twentieth century yet the massive corpus of work which he left behind the multi volume Church Dogmatics can seem daunting and formidable to readers today Fortunately his Dogmatics in Outline first published in English in 1949 contains in brilliantly concentrated form even in shorthand the essential tenets of his thinking Built around the assertions made in the Apostles Creed the book consists of a series of reflections on the foundation stones of Christian doctrine Because Dogmatics in Outline derives from very particular circumstances namely the lectures Barth gave in war shattered Germany in 1946 it has an urgency and a compassion which lend the text a powerful simplicity Despite its brevity the book makes a tremendous impact which in this new edition will now be felt by a fresh generation of readers

Christian Faith B. A. Gerrish,2015-08-24 At the beginning of Christian Faith B A Gerrish reminds us that dogmatics involves critical transmission of the Christian heritage The dogmatic theologian must interpret and assess the traditional beliefs of the church while also considering the new and changing conditions in which that tradition is being embodied With that Gerrish goes on to outline the various presuppositions and affirmations of the Christian faith before ultimately offering a powerful and compelling restatement of Christian faith for the twenty first century As part of his framework Gerrish includes a critical comparison of Calvin s Institutes of the Christian Religion and Schleiermacher s Christian Faith while still paying close attention to the great cloud of theological witnesses from across the spectrum of Christian traditions Gerrish s book provides a robust and penetrating revisioning of Christian theology one that is thoroughly grounded in the classical traditions of the church
