Subject Guide to Children's Books in Print ,1987 **Hecate** ,1990 *Children's Books in Print* R R Bowker

Publishing, Bowker, 1999-12 Wildfowl & Wetlands, 1992 **The New Road: and the Paradigm.** Peter Dodd Cooper, DSc, PhD, 2022-08-01 Peter Dodd Cooper's book *The New Road and the Paradigm* is both a spiritual memoir and a series of scientific articles on his own exploration of the nature of consciousness and of reality itself. As a scientist he brings credibility to this book with his credentials from a long and productive scientific career. From this vantage point he then explores topics that don't fit into our current materialist paradigm, looking deeper to see if he can find more satisfying answers. After exploring the mysteries of quantum physics, he concludes his exploration by saying, "Experiencers tell us that reality is that realm outside Plato's cave where colours are brighter and Oneness with everything is self-evident." *The Elementary School Library Collection*, 1998 **Three Revolutions** Robert Crotty, 2012-08-02 The author describes the drastic changes or revolutions that have occurred in the interpretation of the Bible during his own lifetime. The author uses his own experiences to describe these revolutions and to reflect on what consequences they have had for his own life story. The first revolution was the introduction of the historical critical approach. The Bible was interpreted as historical in a broad sense, not in all its details. In a Roman university, the author later found that this broad historical verification of the Bible became more and more problematic. The second revolution is described as the Bible as Literature methodology. This approach puts aside history and examines the Bible as a clever and subtle literary document which has controlled religious belief and practice but cannot be substantiated as historical fact. There was a third revolution. Within the secular university scene, the author became involved in the study of anthropology and sociology. Judaism and Christianity were seen as religions amongst other religions; their sacred writings were seen as sacred writings alongside others. The new approach forces him to rethink the history of Israel, the relevance of the Hebrew Scriptures, and Judaism itself; he also has to rethink the history of Jesus, the relevance of the Christian Scriptures, and Christianity. This life journey should be of interest to those working in the fields of biblical and religion studies. *Whitaker's Books in Print*, 1998 **Subject Guide to Children's Books In Print, 1989-1990** R R Bowker Publishing, 1989-10 **Learning in an Electronic World** Toni Downes, 1995 Computers and other related technologies have changed and continue to change the ways we communicate and handle information. If children are to participate effectively in this new electronic world, our concepts of literacy must embrace the processes and understandings these technologies require. *Learning in an Electronic World* is designed to help elementary language arts teachers do just that, no matter their level of experience with computers. The book is filled with new ideas and teaching strategies for using computers in a range of learning situations. *Aboriginal Resources for Early Childhood Services* Susan-Lee Walker, 1988 This book reviews a range of resources that have been developed to provide the staff of children's services programs with ideas, teaching strategies, and information relevant to rural and urban Aboriginal culture. It lists people, government departments, children's centres, and resource items.
