## **Finding Common Ground Legislating Gridlock:**

**Finding Common Ground** Dave Bishop, 2015 A pragmatic guide to the legislative process with proven techniques for legislating from the minority side of the aisle and powerful insights on how collaboration makes for better lawmaking

**Legislating Racism** Thomas Adams Upchurch, 2021-10-21 The Civil War and Reconstruction were characterized by two lasting legacies the failure to bring racial harmony to the South and the failure to foster reconciliation between the North and South The nation was left with a festering race problem as a white dominated society and political structure debated the proper role for blacks At the national level both sides harbored bitter feelings toward the other which often resulted in clashes among congressmen that inflamed rather than solved the race problem No Congress expended more energy debating this issue than the Fifty First or Billion Dollar Congress of 1889 1891 The Congress debated several controversial solutions provoking discussion far beyond the halls of government and shaping the course of race relations for twentieth century America Legislating Racism proposes that these congressional debates actually created a climate for the first truly frank national discussion of racial issues in the United States In an historic moment of unusual honesty and openness a majority of congressmen newspaper editors magazine contributors and the American public came to admit their racial prejudice against not only blacks but all minority races If the majority of white Americans not just those in the South harbored racist sentiments many wondered whether Americans should simply accept racism as the American way Thomas Adams Upchurch contends that the Fifty First Congress in trying to solve the race problem in fact began the process of making racism socially and politically acceptable for a whole generation inadvertently giving birth to the Jim Crow era of American history

**Power Grab** Jason Chaffetz, 2019-09-03 The New York Times bestselling author of The Deep State reveals how the liberal Democratic Party threatens American freedoms and politics In the years he served on and eventually chaired the United States House Committee on Oversight and Government Reform Jason Chaffetz gained crucial insight into the inner workings of D C Things were bad then but during the Trump administration liberals reached a new level of hysteria and misconduct Democrat anger has grown so irrational that it has burst through the constitutional guardrails which protect our institutions and our republic While they constantly label the right fascist the left imposes policies which suppress speech limit freedom and empower federal bullies In Power Grab Chaffetz pulls back the curtain on the world of hypocrisy political intrigue and procedural malfeasance that is Washington D C With stories you won't read anywhere else he shows how the left weaves false narratives drums up investigations in search of a crime and refuses to direct congressional oversight towards its appropriate target the government Democrats weaponize nonprofit advocacy groups and monetize partisan anger to line the pockets of their political allies They use voter enrollment as a smokescreen to hide their plans to destabilize free elections and seek to politicize federal agencies like the Federal Election Commission the IRS and the Department of Justice It shouldn't be this way Democrats have abandoned the wisdom set forth in the Constitution for short term political wins Power Grab

shows the lengths to which Democrats will go to maintain their grip on power and how the only thing that will stop them is a return to our founding principles

**Public Lands and Forests Legislation** United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Public Lands and Forests, 2010 Congress Reconsidered Lawrence C. Dodd, Bruce I. **Security 2.0** Charles Hauss, 2015-09-28 Today international security issues are slowly being reconsidered through the lens of human security which refers to a combination of political economic social nutritional environmental physical health and personal safety issues When first mentioned in 1994 the concept of human security represented a significant first step in understanding that security dilemmas could no longer be seen as purely geopolitical phenomena that revolve around the nation state This book explains the progress made toward human security

since then and the steps that remain to be taken to achieve it fully It begins by addressing how the nation state is both the source and the solution of security problems in the world before demonstrating how the meaning of security itself is being reconsidered and traditional approaches are being challenged Building on the concept of human security the book looks at how we are slowly moving toward large scale political and social change It argues that it is time for a security 2 0 approach different from the traditional models of national security Thus Security 2 0 addresses new challenges and their political responses pointing toward alternatives to what is referred to as permanent war It highlights such themes as cooperation the multi dimensionality of security issues and the continuing pressures towards democratization global markets and multilevel governance and how these contribute today to make a safer world Further it shows how environmental threats global corporations identity issues and international regimes such as the EU are also fostering a fundamental rethinking of the concept of security Including a variety of perspectives and written in a jargon free accessible manner the work will provide students with new insights on conflict processes and international security

**Trees and People** Richard N. Jordan,1994  
Trees People is about the power of the conservation ethic for trees and forestlands an ethic first introduced by citizen conservationists in 1875 Richard Jordan details how pioneers concerned about our environment struggled for legislation that would stop the rampant exploitation and waste of our forestland resources Author Richard Jordan explains how the lines of communication between environmentalists and the forestry industry can be reopened Both groups are struggling for conservation management renewal and wise use If the two groups cannot find common ground neither will be able to care for our precious forestlands and Mother Nature will be left to struggle on her own Trees People explains how man saves forests by containing wildfires reducing insect damage controlling disease and offering wildlife the best chance for survival Management also benefits all types of recreation from camping and boating to bird watching or just escaping everyday life Richard Jordan envisions a world where nature and man coexist peacefully Trees People offers solutions that will allow our valuable forestland ecosystems to provide us with the wood products we need to survive with the healthy aesthetic and recreational areas we ve grown to love and with a place where wildlife can live and flourish
