novel full of mysteries about death and life for those who have lost God and are searching for Him An example of a new  
different alternative literature of thought So far authors have written countless books about death without being able to tell  
us anything meaningful about it This time Bedrettin Simsek s novel inspired by real cases of reincarnation that took place in  
Turkey is not about those who die mysteriously but about those who are mysteriously born When he asks Is there a  
connection between reincarnation God and schizophrenia he gives answers that have not been given before He asks the  
questions that have not been asked In a mysterious murder investigation the search for the killer eventually leads us to find  
God When a murder is solved the mysteries of existence are solved What comes out of the criminal s mind reveals that birth  
is actually a much more mysterious event than death For those who want to think while reading to encounter new and daring  
ideas I see not only the great truth behind everyday events but also what happens in this world and in other worlds even  
before birth and after death and I describe these mysteries in my writings Bedrettin Simsek      **The Novel After Theory**  
Judith Ryan,2014-01-01 Novels began to incorporate literary theory in unexpected ways in the late twentieth century  
Through allusion parody or implicit critique theory formed an additional strand in fiction that raised questions about the  
nature of authorship and the practice of writing Studying this phenomenon provides fresh insight into the recent  
development of the novel and the persistence of modern theory beyond the period of its greatest success In this book Judith  
Ryan opens these questions to a range of readers drawing them into debates over the value of theory Ryan investigates what  
prompted fiction writers to incorporate and respond to theory nearly thirty years ago Designed for readers unfamiliar with

the complexities of theory Ryan's book introduces the discipline's major trends and controversies and notes the salient ideas of a carefully selected set of individual thinkers Ryan follows novelists' adaptation to and engagement with arguments drawn from theory as they translate abstract ideas into language structure and fictional strategy At the core of her book is a fascinating microstudy of French poststructuralism in its dialogue with narrative fiction Investigating theories of textuality psychology and society in the work of Don DeLillo Thomas Pynchon J M Coetzee Margaret Atwood W G Sebald and Umberto Eco as well as Monika Maron Alain Robbe Grillet Marguerite Duras Marilynne Robinson David Foster Wallace and Christa Wolf Ryan identifies subtle negotiations between author and theory and the richness this dynamic adds to texts Resetting the way we think and learn about literature her book reads current literary theory while uniquely tracing its shaping of a genre
