cooking Intermediate Mathematics II is the complement book to the first in the pair Mathematics I Both texts systematically
describe concepts and tools that are crucial to every college student who are willing to attain solid base for more advance
mathematical topics They aim to give the reader a comprehensive view of mathematics its use and its role in computation
These two books cooperatively may be different than other mathematics textbooks Every chapter starts with a romantic poem
Researchers have discovered that contemplating poetic imagery and the multiple layers of meanings in poems activates
specific areas of the brain that help us to interpret our everyday reality In these books every topic is assisted by several
examples After presentation of concepts and tools each chapter is proceeded with different real life applications of the topics
Finally each chapter concludes with 60 multiple choice questions to attract deeper learning and understanding of the topics
