**Discourses, Various Subjects (Classic Reprint)** Edwin Hubbell Chapin, 2015-07-08 Excerpt from Discourses Various Subjects The great end of preaching is to reform the life to reconcile men to duty and to God In order to accomplish this the most effectually it is granted that men should have correct views of the doctrines of Christianity that they should understand the true motives and objects of religion But when the preacher has presented his best ideas of these when he has thoroughly convinced the reason he has only just entered upon his work he has only removed the barriers to its successful issue In that great field the human heart lies his chief labor The circumstances of the denomination of Christians with which the author is connected have required and in many places still do require a detailed and frequent exhibition of their views of the doctrines of our religion Hence its preachers have very generally occupied an antagonist attitude and most of its publications present a controversial tone This we repeat circumstances have and still do require But if we have not neglected we cannot too zealously act upon the truth stated above that the heart must be cultivated as well as the intellect that practical religion should be aimed at as the true life and conservation of the members of our communion of all sects of the world The great principle to be propagated and established in the souls of all men is not this or that particular ism but the spirit of Christ Without this no denomination can be right no society can flourish no soul can truly live About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Essays and Speeches on Various Subjects](#) Gustav Stresemann, 1930 *Essays and Speeches on Various Subjects (Classic Reprint)* Gustav Stresemann, 2017-11-24 Excerpt from Essays and Speeches on Various Subjects Stresemann's lifework as illustrated by his Speeches and writings is of so comprehensive a character that any attempt to present it as a whole would far exceed the limits imposed upon the editor A considerable number of economic essays some of which were of fundamental importance and betokened great originality of thought have had to be entirely disregarded Only a selection of his speeches and writings of a political nature could be included and they in their turn had to be severely revised with a view to the omission of redundancies and of such passages as dealt with political questions of an ephemeral nature or related to internal politics if the ample material available was to be kept within reasonable dimensions No notice has been taken of interruptions in this edition beyond what was essential to the comprehension of the speeches and of the atmosphere in which they were delivered The speeches and essays follow one another generally speaking in chronological order save in a few instances where the continuity of the subject treated compelled a departure from this principle The biographical introduction

has been inserted with the object of enabling my readers to appreciate more fully the policy and personality of Stresemann

**The Discourse of Kingship in Classical Greece** Carol Atack,2019-10-11 This book examines how ancient authors explored ideas of kingship as a political role fundamental to the construction of civic unity the use of kingship stories to explain the past and present unity of the polis and the distinctive function or status attributed to kings in such accounts It explores the notion of kingship offered by historians such as Herodotus as well as dramatists writing for the Athenian stage paying particular attention to dramatic depictions of the unique capabilities of Theseus in uniting the city in the figure of the democratic king It also discusses kingship in Greek

philosophy the Socratic identification of an art of kingship and Xenophon and Isocrates model of virtue monarchy In turn these allow a rereading of explorations of kingship and excellence in Plato's later political thought seen as a critique of these models and also in Aristotle's account of total kingship or pambasileia treated here as a counterfactual device developed to explore the epistemic benefits of democracy This book offers a fascinating insight into the institution of monarchy in classical Greek thought and society both for those working on Greek philosophy and politics and also for students of the history of political thought Discourses on Several Subjects and Occasions, Vol. 1 (Classic Reprint) George Horne, 2017-10-25
