An Essay on Native Depravity Leonard Woods, 1835 **An Essay on Native Depravity (Classic Reprint)** Leonard Woods, 2017-11-26 Excerpt from *An Essay on Native Depravity* This general principle is of special use in regard to a great variety of subjects especially with regard to the one now under consideration We are to make no inference from the moral perfection of God which will interfere with our belief of man's depravity We are utterly unable to determine from our notions of the divine goodness whether all or any human beings will be transgressors or in what degree they will be depraved or at what period of their existence or in what manner their depravity will commence Facts show and the Scriptures show that many things are consistent with the goodness of God which judging from our own reason we should have thought wholly inconsistent We are to remember this and to come to the inquiry what is the moral state of man With a mind free from prepossession ready to believe what is proved by proper evidence and with a full persuasion that whatever we find to be fact as to the existence the degree the commencement or the consequences of depravity in man must be perfectly consistent with the moral attributes of God Accordingly the consideration that God is infinitely benevolent can have no more influence upon our inquiry respecting man's moral character and state than respecting the natural faculties of his mind or his bodily senses The subject must be treated wholly as a matter of fact About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [An Essay on Native Depravity](#) Leonard Woods, 2017-09-13 Trieste Publishing has a massive catalogue of classic book titles Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time The many thousands of books in our collection have been sourced from libraries and private collections around the world The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original Our readers see the books the same way that their first readers did decades or a hundred or more years ago Books from that period are often spoiled by imperfections that did not exist in the original Imperfections could be in the form of blurred text photographs or missing pages It is highly unlikely that this would occur with one of our books Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase Our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work We pride ourselves on not only creating a
