Lifespan Neurorehabilitation Dennis Fell, Karen Y Lunnen, Reva Rauk, 2018-01-02 The neuro rehab text that mirrors how you learn and how you practice Take an evidence based approach to the neurorehabilitation of adult and pediatric patients across the lifespan that reflects the APTA s patient management model and the WHO s International Classification of Function ICF You ll study examination and interventions from the body structure function impairments and functional activity limitations commonly encountered in patients with neurologic disorders Then understanding the disablement process you ll be able to organize the clinical data that leads to therapeutic interventions for specific underlying impairments and functional activity limitations that can then be applied as appropriate anytime they are detected regardless of the medical diagnosis

Acquired Neurogenic Communication Disorders Jerry K. Hoepner, Margaret Lehman Blake, 2023-11-08 Acquired Neurogenic Communication Disorders An Integrated Clinical Approach provides an overview of acquired neurogenic communication and swallowing disorders for undergraduate courses in communication sciences and disorders programs Compared to other books on this subject this text is organized by anatomical systems and locations not by disorder The authors aim to teach students about the cognitive speech language and swallowing disorders that occur with damage to neurological systems in a manner that breaks down silos that artificially separate disorders that routinely co occur This approach reflects the reality that most individuals with acquired brain injuries have multiple cognitive communication and swallowing disorders This clinical systems based approach will better foster understanding of the effects of acquired damage and degeneration to neurological systems networks It includes cases to highlight the incidence and co occurrence of speech voice language cognitive and swallowing impairments in real clients who experience these forms of damage Cases are also

representative of a broad range of racial and cultural characteristics which highlight both similarities i e that anatomy and physiology are the same regardless of race and unique differences among people Most chapters include clinical cases which integrate commonly co occurring impairments The intent is to help readers recognize that disorders like aphasia dysarthria dysphagia and cognitive communication disorders don t usually occur in isolation but rather together Many cases include questions to provoke thinking about the overlap between speech language cognition and swallowing Key Features Clinical cases based on real clients embedded into chapters to illustrate specific characteristics of disorders Full color layout and illustrations help students make connections between functions anatomy and clinical impairments Assessment and Intervention tables summarize common assessments and interventions for speech language cognition and swallowing Concept tables include information about subtypes of disorders components of complex functions and frameworks Boxes with activities and additional information to link the content to everyday experiences for generalization of learning Additional pedagogical aids include chapter outlines bolded key terms as well as Latin and Greek origins and meaning concise chapter summaries key concepts lists and numerous references Disclaimer Please note that ancillary content such as practice activities eFlashcards and videos may not be included as published in the original print version of this book

Oxford Case Histories in Palliative Medicine, 2025-02-08 Part of the Oxford Case Histories series this book guides medical professionals and trainees through 52 cases curated to illustrate the varied and often complex landscape of palliative medicine From advanced symptom management in non malignant disease to working in parallel with allied specialties such as oncology this book equips readers with diagnostic skills and clinical reasoning that helps temper knowledge and understanding with pragmatism and practicality in the face of life limiting illness Based on the core clinical curriculum for higher specialist training in palliative medicine each case starts with a short vignette followed by further information or study results before a series of questions ask for potential diagnoses actions or knowledge recall Answers are accompanied by discussion and suggestions for further reading enabling readers to gain the necessary skills for confident and competent diagnosis and management In addition a selection of non clinical cases examines other critical areas of frequently engaged expertise for the palliative care physician exploring themes of advance care planning resuscitation decisions ethics spirituality and UK law ensuring broad relevance to anyone looking after those with advanced incurable disease
