Teaching Through Example-Based Problem Solving (TEPS) in Early Algebra Meixia Ding, 2026-04-06 This elementary mathematics resource outlines a pedagogical approach known as Teaching Through Example Based Problem Solving TEPS and presents pre service teachers with an effective way to instruct early algebra Using contrasting cases to illustrate inverse relations and the basic properties of operations it breaks down an often controversial gatekeeper for students mathematical learning and strengthens their algebraic thinking Conventional algebraic teaching often relies on a show and tell approach or focuses on surface level questions overlooking opportunities for student cognitive engagement and deep learning Yet TEPS integrates real world contexts with concreteness fading and employs deep questioning to promote students engagement and understanding Each case in this illuminating book contains two lesson scripts or sub cases one illustrating the TEPS approach and the other demonstrating a more traditional approach offering teachers opportunities to compare and optimize their own teaching Ideal for use in pre service elementary math methods courses and for teacher professional development as a supplement to any elementary math textbook this book and the TEPS approach empower teachers to meaningfully engage students in an often daunting subject area

Math Instruction for Students with Learning Problems Susan Perry Gurganus, 2017-02-24 Math Instruction for Students with Learning Problems Second Edition provides a research based approach to mathematics instruction designed to build confidence and competence in pre and in service PreK 12 teachers This core textbook addresses teacher and student attitudes toward mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors The material is rich with opportunities for class activities and field extensions and the second edition has been fully updated to reference both NCTM and CCSSM standards throughout the text and includes an entirely new chapter on measurement and data analysis

[Teaching Early Algebra through Example-Based Problem Solving](#) Meixia Ding, 2021-04-07 Drawing on rich classroom observations of educators teaching in China and the U S this book details an innovative and effective approach to teaching algebra at the elementary level namely teaching through example based problem solving TEPS Recognizing young children s particular cognitive and developmental capabilities this book powerfully argues for the importance of infusing algebraic thinking into early grade mathematics teaching and illustrates how this has been achieved by teachers in U S and Chinese contexts Documenting best practice and students responses to example based instruction the text demonstrates that this TEPS approach which involves the use of worked examples representations and deep questions helps students learn and master fundamental mathematical ideas making it highly effective in developing algebraic readiness and mathematical understanding This text will benefit post graduate students researchers and academics in the fields of mathematics STEM and elementary education as well as algebra research more broadly Those interested in teacher education classroom practice and developmental and cognitive psychology will also find this volume of interest

Delano Moore, Kimberly Morrow-Leong, Linda M. Gojak, 2019-09-04 The list of math books to truly synthesize what we know so far and what we need to know is a very short and exclusive list Well you can confidently add *Mathematize It* to this collection Written by three of the most respected math educators today the book zeros in on that often poorly traveled journey between the question and answer in problem solving *Mathematize It* will be your go to resource to install the mathematical play revolution in elementary classes everywhere Suni Singh Author of *Pi of Life the Hidden Happiness of Mathematics* and *Math Recess Playful Learning in an Age of Disruption* Help students reveal the math behind the words I don t get what I m supposed to do This is a common refrain from students when asked to solve word problems Solving problems is about more than computation Students must understand the mathematics of a situation to know what computation will lead to an appropriate solution Many students often pluck numbers from the problem and plug them into an equation using the first operation they can think of or the last one they practiced Students also tend to choose an operation by solely relying on key words that they believe will help them arrive at an answer which without careful consideration of what the problem is actually asking of them *Mathematize It Going Beyond Key Words to Make Sense of Word Problems Grades 3 5* shares a reasoning approach that helps students dig into the problem to uncover the underlying mathematics deeply consider the problem s context and employ strong operation sense to solve it Through the process of mathematizing the authors provide an explanation of a consistent method and specific instructional strategies to take the initial focus off specific numbers and computations and put it on the actions and relationships expressed in the problem Sure to enhance teachers own operation sense this user friendly resource for Grades 3 5 Offers a systematic mathematizing process for students to use when solving word problems Gives practice opportunities and dozens of problems to leverage in the classroom Provides specific examples of questions and explorations for all four operations addition subtraction multiplication and division with whole numbers fractions and decimals Demonstrates the use of concrete manipulatives to model problems with dozens of short videos Includes end of chapter activities and reflection questions How can you help your students understand what is happening mathematically when solving word problems *Mathematize it*

The Important Role of the Early School Years for Reading, Writing and Math Development: Assessment and Intervention at School Entry

Christoph Weber, Martin Schöfl, Susanne Seifert , Natalie Förster, 2025-12-01 School entry is a critical life event for young children Students begin this new phase of their lives with very different abilities due to their individual characteristics previous experiences and education While some children hardly know any letters or numbers others can already read write and calculate quite fluently To optimally support young learners according to their respective starting conditions teachers must recognize students learning prerequisites and adapt instruction to students needs To this end both valid and economical assessments as well as effective and differentiated interventions are needed This Research Topic addresses new developments in early assessments and assessment based interventions around the time of school entry from the last year

before enrollment until second grade In particular this Research Topic aims to bring together research that directly contributes to assessing children s difficulties and providing evidence based support We highly welcome new innovative approaches from the fields of education didactics and psychology that focus on the assessment and assessment based instruction in reading writing and maths Any empirical studies that help to improve the assessment and assessment based interventions for the competencies mentioned are welcome We are looking for empirical quantitative or qualitative studies dealing with the target group of children around the age of school entry last year of kindergarten to second grade elementary school that include at least one of the following topics the presentation or testing of new assessment procedures that focus on performance in and prerequisites for reading writing and maths assessment based interventions both whole class or individual approaches in reading writing and maths the co development of sub skills in reading writing and maths and consequences for assessment and intervention Please note that manuscripts without prior submission of an abstract will not be considered for the research topic

Analysis of Arithmetic for Mathematics Teaching Gaea Leinhardt, Ralph Putnam, Rosemary A. Hattrup, 2020-11-25 This volume emerges from a partnership between the American Federation of Teachers and the Learning Research and Development Center at the University of Pittsburgh The partnership brought together researchers and expert teachers for intensive dialogue sessions focusing on what each community knows about effective mathematical learning and instruction The chapters deal with the research on and conceptual analysis of specific arithmetic topics addition subtraction multiplication division decimals and fractions or with overarching themes that pervade the early curriculum and constitute the links with the more advanced topics of mathematics intuition number sense and estimation Serving as a link between the communities of cognitive researchers and mathematics educators the book capitalizes on the recent research successes of cognitive science and reviews the literature of the math education community as well

Math Instruction for Students with Learning Difficulties Susan Perry Gurganus, 2021-11-29 This richly updated third edition of *Math Instruction for Students with Learning Difficulties* presents a research based approach to mathematics instruction designed to build confidence and competence in preservice and inservice PreK 12 teachers Referencing benchmarks of both the National Council of Teachers of Mathematics and Common Core State Standards for Mathematics this essential text addresses teacher and student attitudes towards mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors Chapters on assessment and instruction precede strands that focus on critical concepts Replete with suggestions for class activities and field extensions the new edition features current research across topics and an innovative thread throughout chapters and strands multi tiered systems of support as they apply to mathematics instruction
