The Player Bookazine Issue 22 The Player, 2012-11-30 *International Sport* Richard William Cox, 2004 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new *Microtimes* ,1997 Willing's Press Guide and Advertisers' Directory and Handbook ,2001 *Research Handbook on Sport Governance* Mathieu Winand, Christos Anagnostopoulos, 2019 Sports governance has developed into a considerable field of research and has piqued many researchers interest worldwide What s more recent scandals that have affected the world of sport can be directly related to misgovernance *Research Handbook on Sport Governance* aims to gather the state of the art research on sports governance It offers a vital reference point for advancing research on the matter while illustrating different approaches and perspectives such as good governance principles systemic governance political governance and network governance Research Design in Politics and International Relations Anouk S. Rigterink, Mareike Schomerus, 2026-02-04 This textbook offers the definitive guide to starting your research project in Politics and IR It shows how methods come alive when applied to real political

dilemmas and offers an accessible framework to help make intentional and considered choices across all stages of research from formulating a question to selecting a design collecting data and analysing results Rigterink and Schomerus introduce seven core research designs spanning discourse analysis and ethnography to quasi experiments and process tracing through contemporary political topics such as violent conflict the environment and political protests What sets this book apart is starting with topics rather than methods so you ll learn how to research real world issues like climate change inequality or war and see how different research designs can help you understand them It s also honest about the challenges of research offering practical strategies to overcome distractions doubts and demotivation Ideal for undergraduate and postgraduate students this book is as much a practical manual as a conceptual map for navigating the terrain of political research that makes doing research manageable and enjoyable Anouk S Rigterink is Associate Professor in Quantitative Comparative Politics at Durham University UK Mareike Schomerus is VP at Busara a research institute headquartered in Kenya and a Visiting Lecturer at the University of Chicago Harris School of Public Policy USA
