## **China As A Model Of Development:**

Chinese Models of Development Tse-Kang Leng, Yu-Shan Wu, 2014-11-20 Discussion of the Chinese Model abounds with the rise of China This volume analyzes the Chinese case in a theoretical framework provides an evolutionary perspective and compares it with other models of development Instead of focusing on one specific case the book's contributors shed light on the application of theories of international relations comparative politics and development studies to the topic under deliberation This book reflects that the uniqueness of the Chinese model should also be put in an historical and evolutionary context It also provides insights into comparisons with other models of development such as the East Asian model and experiences of the former Soviet Union The authors in the book argue that while globalization constrains state power it may also open new windows of accommodation and adjustments Linkages between the domestic dynamics of development and external forces of change become pertinent in understanding the Chinese models of development

**China As a Model of Development** Al Imfeld, 1977-12-01 *The Uniqueness of China's Development Model, 1842-2049* Kwok-wah Yip, 2012 The book discusses the development model of China which has now overtaken Japan as the world's second largest economy This remarkable economic achievement has not followed the Western world's favorite developmental tools of freedom democracy and a market driven economy but rather China's unique model of one party authoritarian rule with a mixed economy the Middle Kingdom's way of development has largely questioned the West's core values freedom and democracy the book argues that the model is based on the country's 3 000 year old civilization forged by the efforts innovations trial and error process of several recent generations and guided by the Chinese Communist Party in the past 60 years

*China: A New Model for Growth and Development* Ross Garnaut, Cai Fang, Ligang Song, 2013 The Chinese economy is undergoing profound change in policy and structure The change is necessary to increase the value of growth to the Chinese

**China** Ross Garnaut, Ligang Song, Cai Fang, 2013-07-01 The Chinese economy is undergoing profound change in policy and structure The change is necessary to increase the value of growth to the Chinese community and to sustain growth into the future The changes are so comprehensive and profound that they represent a new model of Chinese economic growth This book describes the replacement of an old uninhibited investment expansion model of growth by transition to modern economic growth and provides insights into recent changes and where they are likely to lead These include requirements for building the new institutions including its public finances for future growth adjustments in its savings industry and agriculture changes in its demographic structure business environment and pattern of rural urban migration prospects for green growth its energy policy trilemma and the climate change mitigation strategy and changes for China's interaction with the international economy through its overseas investment and trade in high tech products China's adoption of a new model of economic growth is of immense importance to people in China and everywhere This book is an early attempt to take a close look at many of the features of the new model

In Search of China's Development Model S. Philip Hsu, Suisheng

Zhao, Yushan Wu, 2011 This text examines the development model that has driven China's economic success and looks at how it differs from the Washington Consensus. The contributors define the dynamics and distinctive features of the economic, political, legal, and social dimensions of China's development model. *China, an Emerging Power, is Exploring Its Own Development Model* Zheng Yongnian, 2010 Since the reform and opening up in the late 1970s, China has gradually developed its own model of development. The fact that China has effectively resisted the negative impact of the global financial crisis points to the uniqueness of the China model. While the term of China model has been widely used in the media and policy circles, not enough scholarly attention has been paid to China's developmental experience. This paper attempts to look into the China model from a political economic perspective. In discussing the China model, most people will refer to China's experience in economic development. However, the author argues that center to the China model is the country's political development. The author believes that it is not correct to argue that the China model is characterized by economic reform without political reform. The author shows how changes have taken place in Chinese politics in order to promote economic growth. The paper highlights many characteristics of the China political model and economic model and demonstrates how politics and economics are interlinked. **China's Development Experience in Comparative Perspective** Joint Committee on Contemporary China. Subcommittee on Research on the Chinese Economy, 1980 Monographic collection of essays on comparison of economic development trends and economic policy in China and experiences in other developing countries covers economic growth, employment, public debt, income distribution, regional development, choice of technology, health services, etc. Diagrams, map, and references. **The Chinese Model of Modern Development** Tian Yu Cao, 2009-05-12 This study examines the Chinese model of modern development reflecting on the historical experience of China's reform and highlighting theoretical issues that are crucial for understanding the reform in its historical and global contexts. Bringing together articles from scholars, including designers of and active participants in the reform, opinion setters in the current debates on the nature and future of the reform, and Western scholars whose ideas have had great impact on Chinese intellectuals, the book considers the goals of China's reforms and the ways in which these goals may be achieved, the most urgent issues now facing China, and globalization and its impact on China. **Chinese Models of Development** Tse-Kang Leng, Yushan Wu, 2014 Discussion of the Chinese Model abounds with the rise of China. This volume analyzes the Chinese case in a theoretical framework, provides an evolutionary perspective, and compares it with other models of development. Instead of focusing on one specific case, the book's contributors shed light on the application of theories of international relations, comparative politics, and development studies to the topic under deliberation. This book reflects that the uniqueness of the Chinese model should also be put in an historical and evolutionary context. It also provides insights into comparisons with other models of development such as the East Asian model and experiences of the former Soviet Union. The authors in the book argue that while globalization constrains state power, it may also open new windows of accommodation.

and adjustments Linkages between the domestic dynamics of development and external forces of change become pertinent in understanding the Chinese models of development

**China's Economic Development** Lee Pei May, 2024-06-21 Through a rigorous examination of China's rise Lee addresses an important question Did China catch up Or more specifically can growth be automatically translated to catching up with the advanced industrialised countries or has it only allowed limited progress if any to be made To answer these queries and the broader question of the possibility of the Global South converging with the Global North four development theories are utilised with competing explanations to uncover the complexity and multifaceted development of China This includes whether China really has a unique developmental model to offer Positioning China within the global economy this book traces its developmental progress over time as well as its progress relative to other countries To understand whether the Chinese political economy is socialist or not Lee moves away from the orthodox definition of socialism and instead examines the official narrative of Socialism with Chinese Characteristics Lastly this book argues that though China is catching up challenges that could potentially block China's progress for a full catch up are to be anticipated A useful resource for students and scholars in the fields of international relations international political economy Chinese studies and development studies

*The Theory of China Model and the Rise of China* Zhao Jianying, Wu Bao, 2016-07-13 Since the process of opening up began China has followed a unique path that's combined progressive economic policies while staying true to its socialist principles Modern history demonstrates that achieving economic growth within the parameters of a one party socialist state is rarely attainable yet China has been able to achieve this on a vast scale This major new work draws on the expertise of China's leading scholars to discuss the reasons behind this success Editor Zhao Jianying has gathered together material from China's leading thinkers and academics on exactly how China has been able to forge this truly unique model Series Studies on New China Subject Chinese Studies Politics Economics

*Society Building - A China Model of Social Development -English Version - Hardcover* Xiangqun Chang, 2015-11-02 In China's future social development there is likely to be an interest in society building with interactions between top down and bottom up approaches along with a deepened level of social reform and the construction of a harmonious or symbiotic society This represents one of China's social development models and is reflected in the Communist Party of China CPC and state policy The term society building was proposed by Chinese thinkers nearly a century ago and was used by Chinese sociologists to study Chinese society since the 1930s In the 21st century society building has been used as an interdisciplinary concept by Chinese social scientists The main concern of China for its future social development is to enhance its people's wellbeing and encourage them to build Chinese society in innovative and creative ways This volume showcases the latest research of non Chinese scholars relating to this indigenous concept and to China's social development in a global context It tackles the following topics the assessment of the social impact of infrastructure projects China's reforms and its changing political system whether or not the Singapore model is suitable for China to follow soft power

through education and boundaries cosmopolitanisms and spaces in Chinese and international cities The book will be of interest to academics professionals practitioners university students and the general public seeking a comprehensive understanding of China Society Building A China Model of Social Development is the second volume in the Understanding China and the World series edited by the late Chinese sociologist ZHENG Hangsheng 1936 2014 and British Chinese scholar Xiangqun Chang Both the title of the volume and book series deliberately reflect a new perspective on China putting China in the context of globalization and inspiring comparative studies that enable non Chinese to understand China and the world About the book series and background This book was first published in 2014 by Cambridge Scholars Publishing CSP Five new pieces have been added to this new edition and many changes in other 3 pieces It is published by the UK based Global China Press GCP and New World Press NWP GCP is the first publisher specializing in dual language publications that focus on Chinese perspectives of the world and human knowledge and non Chinese perspectives of China in a global context NWP was founded in 1951 and is a member of the China International Publishing Group CIPG It publishes multilingual books on social sciences literature management and other disciplines that serve to introduce China to the world As early as the 1980s NWP published the China Study series in English covering China s economy politics ethnicity population history sociology and anthropology and including Fei Xiaotong s Toward a People s Anthropology 1981 Chinese Village Close Up 1982 and Small Towns in China 1986 NWP is republishing the China Study series jointly with GCP supplemented by new titles A New Development Model and China's Future Deng Yingtao,2014-04-24 The need for China to find a new environmentally sustainable development path is accepted widely among Chinese scholars and policy makers This book makes available for the first time to an English speaking audience Deng Yingtao s ground breaking book New Development Model and China s Future Published in 1991 the book was far ahead of its time Deng subjects the development model of the high income countries to rigorous analysis and explores the environmental implications of China following this model His clear conclusion is that the carrying capacity of the physical environment and nature is limited that economic and social development should not exceed the carrying capacity of resources and that China should not adopt the western development path Based on insights from economics engineering and human psychology the book analyses the environmental impact of the current western development model demonstrates the catastrophic impact this would have in terms of China s own development and in terms of China s relationship with the world and argues that China s rich intellectual and scientific tradition will allow Chinese people to play a central role in finding the solution to the profound environmental and development challenges the world currently faces The China Model Yongnian Zheng,2021 The world has witnessed the rise of China and there is a sustained debate on the China model While some scholars believe that the China model is obsolete others regards the China model as a threat to democracy This book takes an empirical approach and regards the China model as it is and looks into different aspects of the China model ranging from economic growth social development central local relations to the

development of internal pluralism the rise of civil society and rural democracy Given the fact that China's reform and opening up since the late Deng Xiaoping has taken place in the context of globalization the book draws implications of the China model for the world Particularly the book attempts to examine the impact of China's socio economic development model on democratization

**Study on the China Model** Jinquan Jiang, 2009 *The Chinese Labyrinth* Baogang Guo, He Li, 2011 *The Chinese Labyrinth* is a multifaceted survey of the Chinese developmental model based on theoretical and empirical evidence combined with in depth analyses of unique political and social innovations or system of governance at various levels This book is also a provocative study of the challenges derived from the Chinese experience to the conventional theory of political development

*China in Transition* Bettina Born, 1995 [The China](#)

Model and Global Political Economy Ming Wan, 2014-01-10 Since the beginning of China's phenomenal rise in the international system our knowledge of the country has grown rapidly. But those who have debated the China issue in policy circles mostly focus on the implications of China's rise often without a firm understanding of why the country is rising in the first place. Using an analytical framework which links China's domestic political economy order and the global system this book helps us to understand China's rise and the China model more clearly. Indeed unlike most other works that study the China model as a domestic political economy issue it adopts an explicit international comparative perspective comparing the Chinese model to others such as the Washington Consensus and the Japan model. This comparison allows us to break down different components of the China model and to show that while the Chinese Communist Party leadership part of the model is unique other components such as export led growth strategy or packaged aid programs are not. By focusing on the root cause of China's rise namely the loop between the evolving China model and an evolving global governance structure this book reveals the degree of compatibility between the country's profit driven domestic political economy system and the post war global economic order and in turn how and why China has been able to rise in the global system. The China Model and Global Political Economy makes a key contribution to theories of international relations state development and modernization and as such will appeal to students and scholars of Chinese politics Chinese foreign policy international political economy development studies and international relations.
