With a focus on methodological instruction, this volume offers both a retrospective and prospective view of the field. The first two sections explore the history of the field, ethics, and philosophical/theoretical approaches. The next three sections focus on the major methods of qualitative practice as well as newer approaches such as arts-based research and internet research. Area studies often excluded, such as museum studies and disaster studies, and mixed methods and participatory methods such as community-based research. The Primer is written in a clear, concise manner that offers students the opportunity to explore and practice a wide range of research, from ethnography, oral history, focus groups, and content analysis to interviewing and survey research. A full chapter is devoted to feminist approaches to mixed methods research.

Feminist Research Practice: A Primer is committed to the idea that research methods are best understood utilizing a hands-on pedagogy. Research tips and checklists are provided along the way for the novice researcher.
