These are the math skills that your child will be learning this year in Fourth Grade.

### Operations & Algebraic Thinking

1. Interpret a multiplication equation as a comparison. Represent verbal statements of multiplicative comparisons as multiplication equations.
2. Multiply or divide to solve word problems involving multiplicative comparisons by using drawings & equations with a symbol for the unknown number to represent the problem, distinguishing multiplicative comparison from additive comparison.

Represent these problems using equations with a letter standing for the unknown quantity. Assess the reasonableness of answers using mental computation & estimation strategies including rounding.
