## **Communicating Trauma Clinical Presentations And Interventions With Traumatized Children:**

*Communicating Trauma* Na'ama Yehuda, 2015-08-27 *Communicating Trauma* explores the various aspects of language and communication and how their development can be affected by childhood trauma and overwhelm. Multiple case study vignettes describe how different kinds of childhood trauma can manifest in children's ability to relate, attend, learn, and communicate. These examples offer ways to understand, respond, and support children who are communicating overwhelm. In this book, psychotherapists, speech language pathologists, social workers, educators, occupational and physical therapists, medical personnel, foster parents, adoption agencies, and other child professionals and caregivers will find information and practical direction for improving connection and behavior, reducing miscommunication, and giving a voice to those who are often our most challenging children.

*Healing the Fractured Child* Frances S. Waters, 2016-03-28 Anyone who works with troubled children and their families should not miss this book. *Healing the Fractured Child* weaves together comprehensive theory and neurobiology that substantiate practical treatment guidelines for children and their families. The complexity of symptoms, diagnoses, assessment, use of medication, and a variety of innovative treatment approaches for stabilization, trauma processing, and integration are explored and come to life through the clear, practical, and touching clinical illustrations peppered throughout the book. Fran Waters has drawn on her vast clinical experience and thorough knowledge of current perspectives on dissociation and child therapy to write an integrative, readable, and immensely useful masterpiece—a gift to the field of child psychology and psychotherapy and to the many therapists, children, and parents who will benefit from her wisdom.

Pat Ogden, PhD, Founder, Sensorimotor Psychotherapy Institute, Author, *Sensorimotor Psychotherapy: Interventions for Trauma and Attachment*. A skillfully written, comprehensive, and remarkable volume. Well-grounded in theory and full of rich practical applications and detailed case examples, Waters' outstanding work will expand clinicians' capacity to understand and assess dissociation as well as to effectively accompany children in their healing journeys. An essential resource for therapists of all orientations working with trauma and dissociation.

Ana M. Gomez, MC, LPC, Author of *EMDR Therapy and Adjunct Approaches with Children: Complex Trauma, Attachment, and Dissociation*. Written by one of the nation's leading practitioners in the field of childhood trauma, abuse, and dissociation, this comprehensive resource fills a void in the literature to provide in-depth knowledge of current interventions for treating dissociation in youth. It describes a detailed, careful assessment process and creative, evidence-supported techniques for helping children and their families to heal from chaotic, traumatizing experiences. With both a theoretical and practical focus, the book offers proven strategies for successfully treating children and adolescents with varying degrees of dissociation and comorbid symptoms. It also integrates adjunct therapies in environments beyond those of traditional psychotherapy, such as school, and describes how their strategies can be used effectively to augment therapy and understand dissociative children. Based on a model integrating five prominent therapeutic modalities and underscoring the importance of attachment style, the book focuses on the neurobiology of trauma, a high co-

morbidity of symptoms specialized clinical interventions psychopharmacology and family intervention techniques Also addressed are adjunct therapies in art and EMDR In addition the book provides a window into the effects of traumatic events such as medical illness that may be overlooked and safe techniques with dissociative youth who are exhibiting dangerous behaviors Rich clinical examples demonstrate the various phases of treatment and offer a window into the internal world of dissociative children This resource provides mental health clinicians and other health professionals with a wealth of tools to effectively treat this troubled client population Key Features Describes theoretical conceptualization and specialized integrative techniques to treat dissociative children effectively Integrates psychotherapy with EMDR art therapy neurobiology and psychopharmacology Distills current research on neurobiology of trauma and how to intervene with specially designed treatment strategies Provides in depth knowledge of the latest creative interventions for treatment across degrees and ages of dissociation and co morbid symptoms Sensitizes the therapist to often overlooked traumatic events e g medical illness that can exacerbate symptoms
