Communication in Investigative and Legal Contexts Gavin Oxburgh, Trond Myklebust, Tim Grant, Rebecca Milne, 2015-12-14. Communication in Investigative and Legal Contexts. Despite a number of research studies, there remain significant differences of opinion among psychologists, linguists, and other practitioners on how best to describe particular types of questions and communicate most effectively in forensic contexts. *Communication in Investigative and Legal Contexts* brings clarity to the subject by providing readers with in-depth coverage of the complex area of communication in forensic settings, for example, during investigative interviewing of victims, witnesses, and suspects; high-interest groups during discourse in courtrooms; and via legal intermediaries and interpreters. Drawing on knowledge from forensic psychology, linguistics, and law enforcement worldwide, the text is unique in bridging the gap between these fields in a definitive guide to best practice, with chapters written by teams bringing together expertise and specialties from each field. Part of the Wiley Series in the Psychology of Crime, Policing, and Law, the book is also linked to the International Investigative Interviewing Research Group (IIIRG), a worldwide network of interviewing professionals working with international bodies committed to improving investigative interviewing and ensuring all improvements are underpinned by a robust evidence base. Contributors are sourced from North America, Europe, and Asia Pacific, ensuring international relevance.
