Developing Countries

A Comparative Perspective

Decentralization In A Developing Country

Henry Maddick

Decentralization In A Developing Country:

Decentralization & Development G. Shabbir Cheema, Dennis A. Rondinelli, 1983-05 Disillusioned with the results of centralized government planning many countries have recently tried placing planning authority with state regional or district agencies The authors in this volume examine experiences in Asia South America and Africa to review the varieties of decentralization policies and programmes They identify the social economic and political factors that seem to influence their success or failure Alternative approaches to decentralization of development planning are discussed and prescriptions for improved implementation are made Different concepts of decentralization are explored throughout the book and the advantages and disadvantages of different forms of decentralization are also detailed

Administrative Decentralization John M. Cohen, Stephen B. Peterson, 1999 Examines administrative decentralization strategies in developing countries Case studies include Ethiopia Kenya and Mexico Written in cooperation with the United Nations Cohen and Peterson have created a practical and theoretically rich look at administrative decentralization from the past four decades with a focus on the problems confronting developing countries since the 1990s This groundbreaking work debates the role of administrative systems including institutional monopolies and pluralistic states in implementing decentralization strategies and reforms

Decentralization and Development G. Shabbir Cheema, Dennis A. Rondinelli, 1983 Disillusioned with the results of centralized government planning many countries have recently tried placing planning authority with state regional or district agencies The authors in this volume examine experiences in Asia South America and Africa to review the varieties of decentralization policies and programmes They identify the social economic and political factors that seem to influence their success or failure Alternative approaches to decentralization of development planning are discussed and prescriptions for improved implementation are made Different concepts of decentralization are explored throughout the book and the advantages and disadvantages of different forms of decentralization are also detailed

Decentralization and Local Governance in Developing Countries Pranab Bardhan, Dilip Mookherjee, 2006-06-16 Over the past three decades the developing world has seen increasing devolution of political and economic power to local governments Decentralization is considered an important element of participatory democracy and along with privatization and deregulation represents a substantial reduction in the authority of national governments over economic policy The contributors to *Decentralization and Local Governance in Developing Countries* examine this institutional transformation from comparative and interdisciplinary perspectives offering detailed case studies of decentralization in eight countries Bolivia Brazil China India Indonesia Pakistan South Africa and Uganda Some of these countries witnessed an unprecedented big bang shift toward comprehensive political and economic decentralization Bolivia in 1995 and Indonesia after the fall of Suharto in 1998 Brazil and India decentralized in an uneven and more gradual manner In some other countries such as Pakistan devolution represented an instrument for consolidation of power of a nondemocratic national government In China local governments were granted much economic

but little political power South Africa made the transition from the undemocratic decentralization of apartheid to decentralization under a democratic constitution The studies provide a comparative perspective on the political and economic context within which decentralization took place and how this shaped its design and possible impact Contributors Omar Azfar Gianpaolo Baiocchi Pranab Bardhan Shubham Chaudhuri Ali Cheema Jean Paul Faguet Bert Hofman Kai Kaiser Philip E Keefer Asim Ijaz Khwaja Justin Yifu Lin Mingxing Liu Jeffrey Livingston Patrick Meagher Dilip Mookherjee Ambar Narayan Adnan Qadir Ran Tao Tara Vishwanath Martin Wittenberg *Decentralization in Developing Countries* Jorge Martinez-Vazquez, François Vaillancourt, 2011 This insightful study examines the decentralization experiences from 15 countries in different regions of the world All of these countries have actively attempted to decentralize or continue to do so and have faced obstacles serious enough to either derail or significantly delay their decentralization objectives **Fiscal Decentralization and Local Finance in Developing Countries** Roy Bahl, Richard M. Bird, 2018-03-30 This book draws on experiences in developing countries to bridge the gap between the conventional textbook treatment of fiscal decentralization and the actual practice of subnational government finance The extensive literature about the theory and practice is surveyed and longstanding problems and new questions are addressed It focuses on the key choices that must be made in decentralizing on how economic and political factors shape the choices that countries make and on how by paying more attention to the need for a more comprehensive approach and the critical connections between different components of decentralization reform everyone involved might get more for their money *Decentralization* Andrew N. Parker, 1995

Decentralizing Governance G. Shabbir Cheema, Dennis A. Rondinelli, 2007-08-01 The trend toward greater decentralization of governance activities now accepted as commonplace in the West has become a worldwide movement This international development largely a product of globalization and democratization is clearly one of the key factors reshaping economic political and social conditions throughout the world Rather than the top down centralized decisionmaking that characterized communist economies and Third World dictatorships in the twentieth century today s world demands flexibility adaptability and the autonomy to bring those qualities to bear In this thought provoking book the first in a new series on Innovations in Governance experts in government and public management trace the evolution and performance of decentralization concepts from the transfer of authority within government to the sharing of power authority and responsibilities among broader governance institutions This movement is not limited to national government it also affects subnational governments NGOs private corporations and even civil associations The contributors assess the emerging concepts of decentralization e g devolution empowerment capacity building and democratic governance They detail the factors driving the movement including political changes such as the fall of the Iron Curtain and the ascendance of democracy economic factors such as globalization and outsourcing and technological advances e g increased information technology and electronic commerce Their analysis covers many different contexts and regions For example William Ascher

of Claremont McKenna College chronicles how decentralization concepts are playing out in natural resources policy while Kadmeil Wekwete United Nations outlines the specific challenges to decentralizing governance in sub Saharan Africa In each case contributors explore the objectives of a decentralizing strategy as well as the benefits and difficulties that will likely result

Making Decentralization Work Ed Connerley, Kent Eaton, Paul J. Smoke, 2010 The authors of this volume sift through the accumulating evidence to assess how well decentralization has fared Focusing on consequences rather than causes their goal is to inform future interventions in support of decentralized governance by showcasing some of the important trade offs that it has generated so far

Fiscal Decentralization in Developing Countries Richard Miller Bird, 1998 There appears to be an increasing trend in worldwide fiscal decentralization In particular many developing countries are turning to various forms of fiscal decentralization as an escape from inefficient and ineffective governance macroeconomic stability and inadequate growth Fiscal Decentralization in Developing Countries An Overview edited by Professors Bird and Vaillancourt and featuring important research from leading scholars assesses the progress problems and potentials of fiscal decentralization in a variety of developing countries around the world With rich and varied case study material from countries as diverse as India China Colombia Bosnia Herzegovina and South Africa this volume complements neatly the collection Fiscal Aspects of Evolving Federations edited by David Wildasin and also published by Cambridge which presented theoretical advances in the area of research

Rethinking Decentralization in Developing Countries Jennie Ilene Litvack, Junaid Ahmad, Richard Miller Bird, 1998-01-01 In an effort to reduce poverty and improve nutrition this Bank operation assisted the Indian program Operation Flood to develop the dairy industry in India This study examines the policy changes instituted to support the aid flow to the dairy sector and discusses the lessons learned and benefits realized through improved dairy production It also presents suggestions for improvement This program differs from other Bank efforts in that it focuses on a single commodity to alleviate poverty and raise living standards

Decentralisation and Poverty-alleviation in Developing Countries Richard C. Crook, Alan Sturla Sverrisson, 2001 Argues that bringing government closer to the people will make it more responsive in meeting the needs of the poor Presents evidence by means of a systematic comparison of selected African Asian and Latin American countries Concludes that the local central relationship is the major determining factor for effective poverty alleviation

N. Andrew Parker, 1999 June 1995 Although decentralization initiatives have a long history much more needs to be understood about various components of decentralization before sound advice can be given to policymakers Special strategies are needed to address the widespread incidence of rural poverty in developing countries but initiatives aimed at improving the rural standard of living have not consistently reduced poverty Parker examines the rationale for a specific rural focus in poverty reduction programs and reviews recent attempts to encourage rural development He discusses the role decentralization could play in rural development programs and analyzes recent efforts to implement decentralized rural development programs Parker concludes that although decentralization initiatives have a long history much more needs to be understood about various components of decentralization before sound advice can be given to policymakers He suggests a conceptual model based on a souffl theory of decentralization that incorporates the essential elements of political fiscal and institutional decentralization as they relate to rural development outcomes Like a souffl that requires just the right combination of milk eggs and heat to rise a successful program of decentralization must include just the right combination of political fiscal and institutional elements to improve rural development outcomes This paper a product of the Sector Policy and Water Resources Division Agriculture and Natural Resources Department is part of a larger effort in the department to develop a new strategy for rural development The study was partly funded by the Bank s Research Support Budget under the research project Decentralization Fiscal Systems and Rural Development RPO 679 68 Local Government in the Third World
