charge separation spin gap and d wave symmetry were discussed at the symposium as were the unique electromagnetic properties resulting from the low dimensionality of cuprates In the field of new superconductors many exotic materials have been discovered since 1986 A decade of work with cuprate superconductors is reviewed in this proceedings and several of the newest materials are presented These papers will be instructive for many researchers and for students who are to enter this field **ECAI 2008** European Coordinating Committee for Artificial Intelligence,2008 Includes subconference Prestigious Applications of Intelligent Systems PAIS 2008 **OAR Cumulative Index of Research Results** ,1967
