### Findout Constellations

**What:**  
There is a lot of stars that make up constellations. Learning to find constellations is an important skill for astronomers and stargazers. It helps them to know what they are looking at in the night sky.

**How:**  
You can find a map of the northern hemisphere of stars. Constellations in the sky appear to be connected by lines. These lines are called constellation lines. They help you to find the stars that make up the constellation.

**What:**  
The Orion constellation is one of the most prominent constellations in the night sky. It is a large constellation that is visible in the winter months. It is one of the most prominent constellations in the night sky.
