

# TEXT NECK

In healthy posture, the head is perfectly balanced over the shoulders and all four curves of the spine. With every inch of increased forward head posture, you increase the weight that your spine must support by 10lbs. This creates excessive stress through your muscular and skeletal system, causing imbalances and increasing your chance of chronic pain and spinal degeneration.

**Chiropractic can help you reverse the effects of text neck.**

Regular chiropractic, in combination with appropriate smartphone usage, can relieve your neck pain, reduce stress on your nervous system and improve your posture.
